

Eye Level Physician Scale

The broad and flat construction provides easy step-on access and a firm foothold.

The optional measuring rod allows convenient weighing and measuring in one step.

seca 700

Mechanical column scales with eye-level beam

Precise, robust and convenient: both you and your patients will benefit more from the new seca 700. It sets a new standard worldwide. More precision due to the 50 g graduation and a higher capacity of up to 220 kg. More comfort due to the very flat, large platform and the eye-level beam. The seca 700 is available in three versions: kilograms, pounds and kilograms/pounds. The optional measuring rod with a range from 60 to 200 cm facilitates time-saving measuring and weighing in one step.

Equipped with integrated transport castors for mobile use.
